

Kamil Zagrodnik

Lead Product Designer, Łódź, Poland, Remote friendly

kamilzagrodnik@gmail.com, +48 508 207 312, [LinkedIn](#), [Case studies](#)

Lead Product Designer with **15+ years of experience** building and scaling complex digital products across enterprise SaaS, fintech, and e-commerce. **I design and ship AI-powered product features** - including an AI milestone planner adopted across enterprise accounts and a proactive insights engine currently in implementation. As the sole designer on an enterprise strategy execution platform, **I partnered directly with C-level executives** to define product vision and turn strategy into shippable products.

EXPERIENCE –

Lead Product Designer

Howwe Technologies, Enterprise SaaS, Sep 2022 – Feb 2026

- **Shipped Proactive AI Insights to production** - continuous risk detection across all initiatives with actionable recommendations; trust architecture with reasoning transparency, confidence signals, and one-click override
- **Shipped AI Milestone Planner to production** - AI-generated strategic roadmaps reducing milestone planning from hours to minutes; adopted across all active enterprise accounts
- **Redesigned entire platform UI end-to-end** - visual language, information architecture, and interaction patterns; sole designer across 3.5 years of continuous evolution
- **Established design operations from scratch** - feedback loops, documentation, handoff, QA; company reached self-sustaining revenue and white-label adopted by global consulting firm (40+ countries)

Lead Product Designer

Subliminator, Print-on-Demand E-commerce (Shopify), Dec 2020 – Mar 2022

- **Built dual-sided platform for 600+ active sellers** - design tooling, ordering, checkout, and seller dashboard
- **Designed interactive design editor** - custom graphics placement, scaling, etc.; accessible to non-technical users
- **Leveraged seller community as continuous feedback engine** - real users shaping every product decision

Senior Product Designer

Comarch, Enterprise SaaS, Apr 2017 – Dec 2019

- **Designed desktop and mobile private banking suite** - major Southeast Asian financial institution, 10M+ users
- **Deployed on-site to Bangkok** - design workshops and executive stakeholder presentations during critical phases

REFERENCES —

"Kamil thinks in complete products - not isolated features."

Johan Grönstedt - Former CPO, Howwe Technologies, Founder & CEO, GRAIL AI

"Kamil works at both levels simultaneously: building systematic foundations while caring about the small details that make a product feel considered."

Fredrik Colldahl Scherstén - CTO, Howwe Technologies
